- Strategic Planning
- Education Transformation
- Performance Management
- Competency Frameworks
- Policy Development
- Public-Sector Governance
- Digital Transformation
- AI in Education
- Training Needs Analysis
- Stakeholder Management
- KPI Design
- Data Analytics
- Change Management

PROFESSIONAL EXPERIENCE

Principal Project Manager

Sep 2024 — Present

Ministry of Education, Professional Development Sector · Dubai, UAE

- Lead ministry-level programs across performance management, educator competency standards, AI enablement, and talent development for the public-school workforce.
- Drove performance-management reform for approximately 25,000 school staff, revamping policy, guidebooks, process logic, and role-aligned KPI structures in line with federal HR legislation and Cabinet executive regulations.
- Directed the redesign of the "My Journey" performance-management platform for approximately 25,000 users, introducing KPI banks, AI-generated suggestions for goals and competencies, and integration across HR, professional development, and licensing.
- Authored the UAE National Educators' Competency Framework (2025) for teachers, school leaders, and specialists, creating a unified reference for recruitment, appraisal, professional development, and career-path planning.
- Led a competency-based skill-gap assessment for 13,000+ teachers and school leaders, translating framework domains into blueprints, analytics, and Training Needs Analyses at individual, school, regional, and national levels.
- Served as senior project manager, SME, and technical lead for AI-in-education initiatives with the UAE Office of Artificial Intelligence and OpenAI-G42, including capacity-building programs and ministry-specific AI applications.

AI Developer & Data Analyst

May 2024 — Aug 2024

Emirates Schools Establishment, School Operations Sector · Dubai, UAE

- Developed AI-enabled and analytics-driven solutions to support student services, academic decision-making, and school operations.
- Built MurshidAI, an AI agent for academic, social, and career guidance, providing students with personalized support and pathway recommendations.
- Led development of the Freejna Schools Project website with role-based access controls and differentiated user journeys.
- Created the Deira App in Power BI by integrating data from 240,000+ students, enabling school teams and executive leaders to access operational and performance insights.
- Applied Python and machine learning to predictive-analysis use cases and integrated AI components into existing systems.

Educational Data Analyst

Jan 2024 — May 2024

Emirates Schools Establishment, Dubai Schools Committee · Dubai, UAE

- Improved education data quality through structured validation, automation, and more reliable reporting workflows.
- Analyzed operational and wellbeing datasets to support planning, performance review, and leadership decision-making.
- Developed a centralized Power BI solution integrating school services and student-wellbeing data to provide actionable insights.
- Created an AI-driven tutoring application and website for Grade 12 students, supporting personalized learning pathways and engagement.

Mathematics Head of Department

Jan 2018 — Jan 2024

Emirates Schools Establishment, Nadd Al Hamar School · Dubai, UAE

- Led mathematics department planning, performance tracking, and school self-reflection to improve learning outcomes and operational effectiveness.
- Developed an MS Access database to analyze assessment data and drive intervention planning, contributing to a 23% improvement in overall mathematics results.
- Used learner-performance indicators to guide differentiated instruction, teacher support, and departmental planning.

Mathematics Lead Teacher

Sep 2015 — Dec 2017

Roots International School · Cairo, Egypt

- Led departmental work in mathematics planning, assessment, instruction, and data analysis to improve student achievement.
- Contributed to professional-development materials for teachers and introduced technology-enhanced teaching approaches.

IGCSE / IAL Mathematics Teacher

Jan 2012 — May 2015

Egypt British International School · Cairo, Egypt

- Taught Pearson Edexcel and Cambridge courses at O-Level and A-Level.
- Delivered professional development on mathematics instruction and data analysis, supporting a 90% success rate and recognition for top student performance in IGCSE mathematics for two consecutive years.

SELECTED PROJECTS & IMPACT

- **"My Journey" Performance Platform** — redesigned for ~25,000 users with KPI banks and AI-generated goal and competency suggestions.
- **UAE National Educators' Competency Framework (2025)** — unified reference for recruitment, appraisal, development, and career paths.
- **National Skill-Gap Assessment** — blueprints, analytics, and TNA for 13,000+ teachers and leaders across four tiers.
- **Deira App (Power BI)** — integrated data from 240,000+ students into one operational and performance view.
- **Aoun** — AI-powered psychometric application; 1st place, UAE Hackathon 2024 (Innovative Government Employees).
